OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions.

The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Biography

- Joseph Larkin III is an Assistant Professor at The University of Florida Department of Microbiology and Cell Science, Gainesville, Florida. He performed his Postdoctoral Fellowship at the University of Pennsylvania/The Wistar Institute in Philadelphia, PA (2000-2007). He has received a PhD in Immunology from the University of Florida, Gainesville, FL in, 1996-2000. He has completed his BS in Microbiology from the University of Florida (1996). He is an active member of several scientific organizations. He is serving as an editorial board member of reputed journals and reviewer of several journals.

ISSN: 2167-7719

Publications

Cytokine Biology-Cytokines at the Interface of Health and Disease

Joseph Larkin III

The Immune System uses iTregs to keep from giving Non-pathogenic Microorganisms a ?Time-Out?

Joseph Larkin

Lactobacillus johnsonii N6.2 Mitigates the Development of Type 1 Diabetes in BB-DP Rats
Ricardo Valladares , Dhyana Sankar , Nan Li, Emily Williams, Kin-Kwan Lai, Asmaa Sayed Abdelgeliel, Claudio F. Gonzalez, Clive H. Wasserfall, Joseph Larkin III, Desmond Schatz, Mark A. Atkinson, Eric W. Triplett, Josef Neu, Graciela L. Lorca

Inhibition of Type 1 Diabetes Correlated to a*Lactobacillus johnsonii* N6.2-Mediated Th17 Bias.
Kenneth Lau, Patrick Benitez, Alexandria Ardissone, Tenisha D. Wilson, Erin L. Collins, Graciela Lorca, Nan Li, Dhyana Sankar, Clive Wasserfall, Josef Neu, Mark A. Atkinson, Desmond Shatz, Eric W. Triplett and Joseph Larkin III

Air & Water Borne Diseases

Open Access

ISSN: 2167-7719

Cytokine-Receptor Complexes as Chaperones for Nuclear Translocation of Signal Transducers .

Howard M. Johnsona, Barbara A. Torresa, Marino M. Greena, Brian E. Szenteb, Kendra I. Silera, Joseph Larkin III, Prem S. Subramaniama

Differential Nuclear Localization of the IFNGR-1 and IFNGR-2 Subunits of the IFN-γ Receptor Complex Following Activation by IFN-γ

Joseph Larkin III, Howard M. Johnson, and Prem S. Subramaniam.

Hypothesis: Ligand/Receptor-Assisted Nuclear Translocation of STATs

Howard M. Johnson, Barbara A. Torres, Marino M. Green, Brian E. Szente, Kendra I. Siler, Joseph Larkin III, Prem S. Subramaniam.

Human IFNγ Receptor Cytoplasmic Domain: Expression and Interaction with HuIFNγ

Marino M. Greena, Joseph Larkin III, Prem S. Subramaniama, Brian E. Szenteb, Howard M. Johnsona

Surveillance transbronchial biopsies in infant lung and heart-lung transplant recipients.
Don Hayes, Peter B Baker, Benjamin T Kopp, Stephen Kirkby,Mark Galantowicz, Patrick I McConnell, Todd L Astor

Right heart catheterization measuring central hemodynamics in cystic fibrosis during exercise.
Don Hayes, Curt J Daniels, Heidi M Mansour, Benjamin T Kopp,Andrew R Yates, Karen S McCoy, Alpa V Patel, Stephen Kirkby

Air & Water Borne Diseases

Open Access

ISSN: 2167-7719

Nuclear Translocation of IFN-γ Is an Intrinsic Requirement for Its Biologic Activity and Can Be Driven by a Heterologous Nuclear Localization Sequence

Prem S. Subramaniam, Marino M. Green, Joseph Larkin III, Barbara A. Torres, and Howard M. Johnson.

Journal of Air & Water Borne Diseases Related Journals

- Journal of Bacteriology & Parasitology
- Journal of Medical Microbiology & Diagnosis
- Journal of Microbial & Biochemical Technology
- Journal of Plant Pathology & Microbiology
- Journal of Vaccines & Vaccination

Journal of Air & Water Borne Diseases Related Conferences

- Allergy Conference
- 4th Bacteriology and Infectious Diseases Conference
- 2nd Infectious Diseases Congress

OMICS International Open Access Membership

OMICS International Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors.
